Environmental Management Policy

1. About Us

Capri Global Capital Limited (CGCL) is one of India's leading diversified Non-Banking Financial Company (NBFC) with presence across multiple verticals. Promoted by first generation Entrepreneur, Mr. Rajesh Sharma. CGCL is listed in National Stock Exchange and Bombay Stock Exchange. CGCL address the capital needs of MSMEs by offering tailor made business and term loans to help them finance their capital and operational expenses.

We believe that equal access to capital can drive collective social growth and well being and we're committing to the last mile delivery of this capital for:

- The determined & enterprising
- Transformative social change
- Equal opportunities

2. Purpose and Scope

CGCL, as a responsible corporate entity, is dedicated to upholding environmental sustainability. Through the Environmental Management Policy, CGCL aims to express its dedication to minimizing both the direct and indirect environmental effects of its operations. The company is committed to managing and reducing its environmental impact wherever feasible, continually enhancing its environmental performance. CGCL acknowledges the significance of its operations' environmental implications and strives to mitigate risks to the environment, stakeholders, and portfolios. This policy serves as a foundation for comprehending and addressing environmental risks, impacts, and opportunities. This policy pertains to CGCL's operations throughout India and focuses on;

1. Ensuring compliance with relevant environmental laws and regulations
2. Creating internal and external stakeholders' awareness of environmental management policy and environmental impacts
3. Commitment to set targets and objectives to reduce environmental impacts

3. Guiding Principles

CGCL affirms the principle that every resident of India has the right to reside in a clean and secure environment.

CGCL is committed to enhancing resource efficiency in its operations, advocating for the Three R's - Reduce, Reuse, and Recycle, and minimizing all forms of waste generation

3.1 Procurement Approaches

CGCL acknowledges the importance of collaborating closely with our suppliers to minimize waste, enhance efficiency, and decrease our carbon footprint.

Consequently, we are committed to further integrating environmental considerations into our procurement methods. The CGCL will strive to acquire products that are:

- Made from recycled materials
- Environmentally friendly
- Energy-efficient
- Sourced locally

3.2 Management of Water Resources:

In CGCL offices and branches, water primarily serves employee consumption and domestic needs. To decrease consumption levels, we will encourage the adoption of best practices and engage employees in initiatives aimed at conserving water.

3.3 Management of Energy and Emissions:

CGCL will persist in its endeavors to monitor and decrease its energy usage. These efforts will focus on:

- Measuring and documenting energy consumption and emissions
- Advocating for products and services that lead to reduced energy usage and emissions
- Implementing energy-efficient operational protocols for facility management and travel.
- CGCL will endeavor to utilize technology to reduce its environmental impact in business operations, including the adoption of energy-efficient technologies and encouraging the use of virtual communication methods.

3.4 Management of Waste:

The primary sources of waste generated by the CGCL include electronic (IT related) waste and paper waste, which will be entrusted to authorized recyclers. The CGCL will ensure that no hazardous electronic waste is sent to landfills from its premises.

3.5 Governance and Implementation

The Policy has undergone evaluation by the Management at CGCL and has been approved by the Board of the Company. This Policy will undergo review and will be updated as necessary.

The CSR, IT, Administration and Infrastructure departments of CGCL will be responsible for ensuring the implementation and adherence to all directives outlined in this policy throughout the organization.

4. Custodian and Responsibility

For inquiries regarding implementation, contact the Admin team line managers. Unresolved queries will escalate to the Head Admin. The policy will be updated as needed to adapt to changing situations.
